BALLOONING BODY BITS

USED TO LOOK NORMAL. NOT ANY MORE

We couldn't help noticing that you ladies look swell

1 TULISA'S LIPS

While Tulisa, 25, has had a lot to pout about recently, her lips seem to be getting plumper by the week. We first spotted her plumper pout in August, but last week it seemed fuller than ever. Leading plastic surgeon Angelica Kavouni says, "It does look like Tulisa is travelling down the lip-enhancement route. Her naturally thin upper lip seems slightly inflated and now she's sporting very inflated upper lower lips, which in my view odd. The top lip is naturally smaller and less full than the

1 TULISA'S LIPS

While Tulisa, 25, has had a lot to pout about recently, her lips seem to be getting plumper by the week. We first spotted her plumper pout in August, but last week it seemed fuller than ever. Leading plastic surgeon Angelica Kavouni says, "It does look like Tulisa is travelling down the lip-enhancement route. Her naturally thin upper lip seems slightly inflated and now she's sporting very inflated upper and lower lips, which in my view looks odd. The top lip is naturally smaller and less full than the

lower, and to alter this will make you look unnatural." Luckily, most fillers are short acting and the effects should wear off after six to nine months. Are you listening, T?
